

ACP Information

The Architectural Control and Planning Committee for Clear Lake Rivera Community Association makes the decisions on a variety of issues.

Any plan for building, remodeling, painting, or any changes to your home needs the approval of the ACP Committee. It is an easy process and the staff is ready and willing to assist you.

The ACP Committee also oversees the violations of the CC&R's within the community and makes the recommendations to staff regarding how to handle them. The ACP Committee answers directly to the board of directors, and it is the board that has the final vote.

At this time, the ACP Committee is looking for a few alternate members. If you are interested in serving on this committee, please give the office a call at 707-277-7281.
